## WORK EXPERIENCE

---

- **THE NOVALUX GROUP LLC** | Software Developer, Co-Owner **02/2023 - Present**

As a skilled software developer at The Novalux Group, I have successfully designed and developed numerous tailored websites for diverse businesses, demonstrating a keen understanding of their unique requirements. Proficient in a range of technologies, I utilized HTML, CSS, jQuery, Bootstrap, and C# to create dynamic and responsive web solutions. My commitment to delivering high-quality websites that align with clients' specific needs has contributed to the success of various projects. This experience has not only honed my technical expertise but also cultivated strong problem-solving and communication skills essential for effective collaboration with clients and team members.

- **LABXPLOSION LLC** | Junior Developer **02/2022 - 08/2022**

As a junior developer, I am adept at addressing UI bugs and implementing new features on websites, leveraging my skills in HTML, CSS, and JavaScript. Although I am in the early stages of my career, I possess a solid foundation in software development and am eager to expand my knowledge and progress in this dynamic field. Additionally, I have experience with Bootstrap, a powerful front-end framework, enhancing my ability to create responsive and visually appealing user interfaces. I am committed to continuous learning and am excited about contributing to the success of projects through my dedication and skills.
